

The Baltic Sea: Germany, Denmark, Sweden, Finland, Russia, Poland, Kaliningrad, Lithuania, Latvia, Estonia

The nine countries bordering the Baltic Sea offer an immense variety of cruising grounds, peoples and cultures. There are thousands of harbours and innumerable anchorages, and it would take an entire bookshelf, to cover them all in detail. The information contained in this book is therefore selective. It has been chosen for its value both at the planning stages - preparing the yacht, choosing the most suitable route, timing and communications etc - and again on arrival, when a general overview of each individual country is followed by specific harbour information. Where detailed cruising information is readily available - effectively Germany, Denmark, Sweden and Finland - only selected harbours are covered, chosen, with a few exceptions, as fulfilling certain key needs. Where cruising information is more limited - Poland, Kaliningrad, Lithuania, Latvia, Estonia and Russia - many smaller harbours are also featured in detail. In addition to comprehensive suggestions for further reading (and sources in each country from which they may be ordered) more than 200 websites are listed, again chosen for their relevance both at the planning stage and en route. In order to facilitate the latter, as well as for general communication, details of internet access points are included for most major harbours. This 3rd edition has been produced by a team from the Royal Cruising Club and contains substantial changes. Coverage of the West Coast of Sweden, the Gota Canal and Gulf of Bothnia has been extended and there is more information detailed information on the Baltic states. Throughout there are new plans and photos and the technical data on countries and navigation has been thoroughly revised. Beautiful, secluded anchorages, picturesque canals, bustling marinas, dramatic cities - all await those considering a Baltic cruise.

: The Baltic Sea: Germany, Denmark, Sweden, Finland, Russia, Poland, Kaliningrad, Lithuania, Latvia, Estonia (9781846231872) by Mike missile systems in the Kaliningrad Oblast has significantly expanded the spectrum of Russia, NATO, Baltic Sea region, eastern flank, security, defence, Sweden, Finland, security and defence policies of Finland, Denmark and the ..
