

Hammers in the Wind (Book One of the Northern Crusade)

Exiled millennia ago, the dark gods have tirelessly sought to return and bend the world of Malweir to their will. Their agents roam the world in search of weak willed men, knowing that only through corruption and chaos can their masters return. It begins in the northern kingdom of Delranan the night King Badrons castle is attacked and his only son murdered and his daughter kidnapped. Angered, he leads his kingdom to war against the neighboring Rogscroft. A small band of heroes is assembled to find the princess and return her safely but all is not as it seems. Badron falls under the sway of the Daeshan, immortal agents of the dark gods, and unwittingly begins the final campaign that will reduce Malweir to willing servants of evil. The hour of the dark gods return is now at hand.
