

On earth as it is

The interlocking worlds of the erotic and the religious are explored in the novella and ten stories in this collection. The stories range through time and space, from present-day Toronto to the nineteenth-century high Arctic, from the Greek Islands to Kathmandu, from a tunnel under Vimy Ridge in 1915 where a Canadian sentry hears his enemy singing through the wall, to a tourist town in the Rockies where a painter and her dying husband make love for the last time. From the Trade Paperback edition.
