Its a small suburban town in the late 1960s. Mysterious objects appear over major cities and then disappear never to be seen again. In their wake, the recently deceased are coming back to life feeding on the flesh of the living. This series chronicles the days after the zombie apocalypse as a family and a nation struggle to return to their normal lives. Instead of a world falling apart, the Spencer family finds their idealized suburban lifestyle never existed in the first place when the hordes of undead ghouls take a back seat to the pre-zombie issues that continue to affect their lives.
