

Travels with my laptop - Vol. 3 - Italy, Austria and Croatia

Travelling our wonderful world can be invigorating, sometimes challenging & often humorous. With a keen eye for detail, David has captured the fascinating aspects of the people & cultures of many countries. Whenever he is travelling, in company with his wife & trusty laptop, David creates a daily travelogue to send to the armchair friends back home. These daily reports are now recorded here in book form with photographs taken at the time, and are as fresh, informative & humorous as when they were written.
