

Laws of Wrath

Chinatown, New York - The butchered body of a transvestite is found in a dumpster. Nothing out of the ordinary for NYPD, except the victim just so happens to be the brother of Detective Phee Freeman. At first the slaying looks like the random act of a vicious killer, but when it is discovered that there are similar ritualistic murders throughout the city, Phee and his partner Quincy Cavanaugh, along with FBI Agent Janet Maclin, have no choice but to join forces with Dr. Daria Zibik, a brilliant but deranged cult leader. With the clock running down and bodies piling up, Phee and his partners must do everything they can to stop the bloodshed and determine if the evil they are hunting and the psychopath they are trusting could actually be one in the same.?
