

Meehall

Do you remember what it was like, really like, to be a kid? If you cannot, then Celtic artist Michael Carrolls first novel is the one for you. These fifteen stories collectively portray a life in transition from childhood to adolescence. But dont expect another of those warmhearted memory trips. Meehall is a powerful memoir of love and family, but its also a helluva lot of fun. And educational as well. For example, do you know... How to safely capture a fleeing rodent? Or to catch a snake or tadpole? What kind of salad bowl makes the best merry-go-round? Have you ever heard of Mule-Skinners? Or a henway? Do you know the best way to wheedle your Mom into buying you a dog, or how to skillfully evade going to church...without getting caught? If your curiosity has been aroused, then read Michael Carrolls Meehall: Memories of A South Side Lad, and be enlightened, entertained, and touched. This ones for all of us.
