

Parzival and the Stone From Heaven: A Grail Romance Retold For Our Time

The story of Parzival has exercised a powerful fascination for writers, artists, and thinkers ever since it was written in the early 13th century, yet the density and complexity of the poem have made it almost impenetrable to a wide readership, even in translation. This new version is lively, accessible, and inspirational, staying faithful to the spirit of the original while highlighting the contemporary relevance of its themes.
