

The 2013 Import and Export Market for Printed Books, Pamphlets, Maps, and Globes Excluding Advertising Material in Jordan

The 2013 Import and Export Market for Printed Books, Pamphlets, Maps, and Globes Excluding Advertising Material in Jordan

by
Professor Philip M. Parker, Ph.D.
Chaired Professor of Management Science
INSEAD (Singapore and Fontainebleau, France)

On the demand side, exporters and strategic planners focusing on printed books, pamphlets, maps, and globes excluding advertising material in Jordan face a number of questions. Which countries are supplying printed books, pamphlets, maps, and globes excluding advertising material to Jordan? How important is Jordan compared to others in terms of the entire global and regional market? How much do the imports of printed books, pamphlets, maps, and globes excluding advertising material vary from one country of origin to another in Jordan? On the supply side, Jordan also exports printed books, pamphlets, maps, and globes excluding advertising material. Which countries receive the most exports from Jordan? How are these exports concentrated across buyers? What is the value of these exports and which countries are the largest buyers? This report was created for strategic planners, international marketing executives and import/export managers who are concerned with the market for printed books, pamphlets, maps, and globes excluding advertising material in Jordan. With the globalization of this market, managers can no longer be contented with a local view. Nor can managers be contented with out-of-date statistics which appear several years after the fact. I have developed a methodology, based on macroeconomic and trade models, to estimate the market for printed books, pamphlets, maps, and globes excluding advertising material for those countries serving Jordan via exports, or supplying from Jordan via imports. It does so for the current year based on a variety of key historical indicators and econometric models. In what follows, Chapter 2 begins by summarizing where Jordan fits into the world market for imported and exported printed books, pamphlets, maps, and globes excluding advertising material. The total level of imports and exports on a

worldwide basis, and those for Jordan in particular, is estimated using a model which

Jordan imports 96 percent of its energy from neighboring countries such as Iraq and Saudi Arabia. The Government of Jordan (GOJ) in 2013 for a seven-year, \$1.25 billion Eurobond. The GOJ is better from a marketing perspective in some sectors to have catalogues/brochures etc. The Chinese Advertising Association, the Internet Society of China and so on.
