

Shell House

Jane Thynnes second novel is another skilfully woven literary mystery, set in contemporary times and between the wars, that encompasses a quest into a mans past, the complexities of wartime subterfuge and a love story of a woman torn between two brothers. In the grounds of Foxhill, the country home of the late Sir Lewis Appleby, pioneering geneticist and icon of the left, stands a shell decorated summerhouse. At the height of a stifling summer, Jessica Leigh takes a break from her career as a Westminster lobbyist to accompany her boyfriend Steve Irvine to Foxhill where he is hosting an academic conference. She is not pleased when they are joined by Steves brother -- and total opposite -- Alex, a journalist, but it is with Alex that she discovers the beautiful ruined shell house. A gardener reveals that it was being restored by Sir Lewis as a monument to his love for his wife Katherine. Then Katherine vanished and the work was abandoned. But why, Jessica wonders, would anybody want to leave a man like Lewis Appleby? She is distracted when the biotechnology company she is hired to represent, attempts to suppress a dramatic new genetics discovery -- and Alex, attracted to Jessica, finds himself asked to explore the companys motivations. But the double narrative returns to the 1930s for the shocking answer to Katherine Applebys disappearance and its continuing reverberations.

Hidden in a shrubbery near the main House at Curraghmore, is the most enchanting Shell House, created by Catherine Countess of Tyrone 1754. Rare Shells. Shell homes are sheathed in OSB and house wrap, complete with all interior/exterior walls, roof trusses and floor joist systems for placement on foundation wall The Shell House Summer Artist Residency is an opportunity for 5-6 interdisciplinary artists to live and work together for two weeks in the Catskills.
