

Signals of Distress: A Novel

November, 1836. A fierce gale beaches an American sail ship off the English coast, injuring an African slave below decks and eventually disgorging 300 head of cattle and rowdy American sailors into a hardscrabble fishing village. The same storm drives into port a steamer, bearing one Aymer Smith, the foolish well-intentioned prig who will deprive the town of its livelihood, free the African slave, and set into motion a whole series of unforeseeable, tragicomic events. One of the most seductive and surprising novelists at work today, once again creates a richly strange and believable world, uncannily familiar to our own.

Signals Of Distress, Jim Craces fourth novel, is about as far as it is possible to get from contemporary NW3, but the fact that it is set in the 1830s.
