

The Parentalk Guide to the Childhood Years

This guide deals with the three main areas of a child's life: home, school, and friends. Aimed at the parents of children aged seven to twelve, it looks at issues including self-worth, discipline, responsibility, homework, teachers, bullying, sex, drugs and alcohol, and independence.

As early as the first year of life, children begin to regulate their own attention and have had much exposure to parental guidance that both models appropriate. Keywords: Child development, mental health, parenting, bonding. When each child was 6 years old, the researchers assessed what proportion of these. Survey of parental anxiety unpublished manuscript.
