

Skull Session

A young man suffering from Tourettes Syndrome desperately searches for steady work before his ex-wife can claim custody of their son. He accepts a job offer from his eccentric aunt to repair her old Hudson Valley mansion, and takes his girlfriend along to help. Sifting through the rubble, he discovers that the house has been vandalized by an almost superhuman rage. And when dead teenagers are found in the area, the violent path leads directly to the mansions door. To end the horror, he must confront his familys past, and the dark side of his own soul....
