

Twelve-Furlong Mile and Other Works of Short Fiction

Twelve-Furlong Mile and Other Works of Short Fiction is a varied and unique collection of ten stories built upon likable, easy-to-relate-to characters that stray from their comfortable, everyday surroundings and find themselves in situations filled with humor, romance, and conflict. In the short story Twelve-Furlong Mile, two young men take their annual trip to Las Vegas, eager to escape the rigors of their daily lives. The End of Latency and Summer Trade are science fiction tales, refreshing in their approach to the genre. Ken and the Princess and Friendly Wager are about the pursuit of true love-obtainable-but always at a price. The Adventures of Dan Wetmeyerbent is a story about the trials of an eighth-grader assigned to write a column for his school newspaper. Perhaps the most touching story, The Wingman, brings a whole new perspective to the fabled, trusty sidekick designation for one man at an out-of-town work seminar. The stories-and their surprise endings-are a reflection of the author Steve Scott's appreciation for the original television show, The Twilight Zone. The twisting plot lines, while always believable, will, at the same time, bowl you over.
