

Costa Rica

This book is a collection of carefully shot and selected photographs taken at my favorite locations in Costa Rica. Most of these spots I've discovered through word of mouth via my family, but others were found with just a little lucky further exploration of well-known locations. All of the photographs were taken on an iPhone 4S and let me say that perhaps some shots weren't the safest of situations for my communication device. Some of the shots had the phone inches above the river's surface, or within proximity of the ocean's spray, and other shots I felt I could only take from the furthest limb of a tree or on the tip of a craggy rock to get the background just right. It seems my effort for brilliant colors was worth it and I can only hope you enjoy the contents of this photo book as much as I enjoyed creating it.
