

Why and How the CPC Works in China

The international community now views China and the Communist Party of China (CPC) with increasing respect because of a series of important and symbolic events from the truly exceptional Beijing Olympic Games and the 2010 Shanghai World Exposition that attracted world attention to the fast economic growth obtained even against the backdrop of the international financial crisis. The China Model, China Road and China Experience have become hot topics of discussion both at home and abroad. Insightful people are pondering how the CPC could score such brilliant achievements, and how such a party can still be full of vigor and vitality 90 years after it was founded and 60 years after it gained power.
